

WHY THAT LAME BACK?

That morning lameness—those sharp pains when bending or lifting, make work a burden and rest impossible. Don't be handicapped by a bad back—look to your kidneys. You will make no mistake by following this Scotland Neck resident's example.

Mrs. J. H. Allsbrook, Roanoke St. says: "I had a dull pain across my back and often suffered so I could hardly walk. I had headaches. My kidneys didn't act properly and I was bothered with gravel. A friend recommended Doan's Kidney Pills so I decided to try them. Doan's strengthened my back and kidneys and I have had no occasion to use them for several years."

LASTING RESULTS

Four years later Mrs. Allsbrook said: "I wish to confirm a statement I gave Doan's Kidney Pills. I have had no occasion to use a kidney remedy since. I think Doan's are a wonderful medicine."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Allsbrook had. Foster Milburn Co., Mfrs., Buffalo, N. Y.

Save at home—the Liberty Bell Home Bank is an incentive to save for Independence. Come in and let us explain.

WELCOME SERVICE AT BAPTIST CHURCH SUNDAY NIGHT

There will be a special service Sunday evening at 7:30 at the Scotland Neck Baptist Church for the teachers of the Scotland Neck Graded School, and the teachers from the schools at Dawson's, Roseneath, and Hobgood. The patrons of the school are cordially invited to be present. It is the desire of the promoters of this service to create a closer cooperation between the teachers and the patrons of the schools.

DYNAMITE MAY BE DUSTED BY OXYGEN

Washington, Sept. 16.—A new application of liquid oxygen, the use of the material in mine rescue breathing apparatus, is attracting the attention of the United States Bureau of Mines. This innovation has already been tried out in Europe, and Dr. F. G. Cottrell, of the National Research Council, formerly director of the Bureau of Mines, is now investigating for the Bureau the use of the apparatus in England and on the continent. The new apparatus weighs no more than one-half of the present type, while it may be used by the wearer at one charging of the regenerator for double the time of the present standard type. The increasing cost of dynamite and permissible explosives at the time the United States entered the world war caused the Bureau of Mines to investigate all possible substitutes. Eminent physicists are promising great improvements in liquifying apparatus that can be used for the production of cheap oxygen, it is possible that the explosive will become so cheap that it will displace dynamite and other explosives where conditions permit its use.

Report of the condition of **THE BANK OF HOBGOOD** at Hobgood, N. C., in the State of North Carolina, at the close of business, Sept. 6th, 1921.

BEE HIVE DEP'T STORE

WOULD YOU PAY FULL FARE ON THE RAILROAD AND RIDE ONLY PART OF THE WAY?

People somehow get the idea that by delaying insurance they are saving money, that by waiting a couple of years' premiums. But the fact is the very opposite of this.

SUPPOSE you bought a railroad ticket from New York to Chicago. Would you walk to Albany to board the train?

You certainly would not. Well, that's about what happens if you defer buying life insurance. When you DO buy it, you pay full rate, the higher rate of an older age.

You deprive your family meanwhile of the comfortable protection of a good insurance policy and deprive yourself of a monthly income if you are totally and permanently disabled by disease or accident. In other words:

YOU WALK TO ALBANY, THOUGH YOU PAY FULL FARE FROM NEW YORK!

LET US PROVE THIS with the actual records of three policies on three different lives, each for \$10,000 Whole Life plan, as follows:

Age at issue	Number of years insured	Total Outlay
24	45 years, or to present age of 69	\$6,146
34	34 years, or to present age of 69	6,654
44	25 years, or to present age of 69	7,246

(The above "Total Outlay" was the amount paid in premiums less the Annual Dividends)

The man who insured at 44 paid over \$1,000 more than the man who insured at 24 and had 20 years less insurance for his money.

HAZARDS LURK IN A SINGLE DAY'S DELAY

People will not delay in taking life insurance when they realize what they lose in doing so.
